Meeting Presentation Summary and Speaker Bio

Presentation Summary:

The majority of the San Francisco Bay's shoreline is too shallow for conventionally-hulled ferries. However, high speed hovercraft can access these areas over shallow water and mud, landing on beaches and ramps. Hovercraft are a powerful tool in the fight to reduce congestion that's gridlocked the region. Mr. Sargent and Jewell will discuss this mode of transportation and their efforts to bring it to the Bay Area.

Speaker Bio:

Felix Sargent and Simeon Jewell are the co-founders of HOVR, a new company bringing hovercraft back to the San Francisco Bay Area.
